

5 K VA 3 KW

SOLAR INVERTER

DESIGNED TO FULFILL THE NEEDS OF TODAY'S
EVER-CHANGING ENERGY CHALLENGES

ELS SOLAR UPS IS AN INTEGRATED SYSTEM CONSISTING OF A SOLAR
CHARGE CONTROLLER, TRANSFORMER BASED INVERTER, AC MAINS
CHARGER,

The system gives priority to solar power first and uses grid power only when solar
power and battery charge is insufficient to meet the load requirements. When the
battery is fully charged the system will automatically turn on the inverter to supply
the load.

PRICE: R 95000.00 excl. Vat
